PROJECT INSTRUCTIONS:

Before you begin, wipe a damp sponge over entire bisque to remove dust and contaminants.

1. Paint 1 thick coat of Bright Briarwood all over the outside of the mug until no white is showing.
2. When the color has lost its shine, take a slightly damp sponge and gently wipe the color off the pottery. You want to wipe lightly, removing the color from just the raised parts of the texture. This will leave the color in just the cracks, giving it an antiqued look. For best results, continually rinse your sponge in your water bowl while you wipe, as needed, and squeeze out the water well so it doesn't drip onto your pottery.
3. Paint 2 washy coats of Dark Ginger all over the outside of the mug.
4. Paint 2 coats of Bright Brown on the lips.
5. With clean, damp cotton swabs, wipe the teeth. Try to leave some of the Bright Briarwood in the texture.
6. Paint 1 thick coat of Really White on the teeth.
7. Paint 2 coats of Dark Taupe on the nose.
8. Paint 3 coats of Bright Briarwood on the handle.
9. With a clean, damp round sponge, wipe the logo on the back. Try to leave some of the Bright Briarwood in the texture.
10. Paint 2 watery coats of Dark Grey on the background border around the logo.
11. Paint 2 watery coats of Light Grey on the letters.
12. Paint 2 watery coats of Light Grey on the inside of the mug.
13. Carefully paint 1 thick coat of Bright Briarwood on the top rim.
14. Clear glaze then stilt and fire to cone 06.
