INSTRUCTIONS

1. Start out by transferring your word pattern onto the side of the mug using a pen and NCR paper.
2. Using a small brush or a liner brush, trace on your letters using one coat of Licorice.
3. Paint the inside of the mug with 3 coats of Licorice and a large brush.
4. Finally we are going to splatter the outside of the mug. Mix your Licorice paint with 50% water and 50% paint. Dip your medium brush into the watered-down paint and rub your finger over the top of the bristles to spray the outside of the mug with paint.

TIPS

- 3 coats of paint will give you nice solid colors.
- Water down the paint with 50% water to 50% paint to thin it out before splattering.
- When you're painting the letters, the harder you press down on your brush the heavier the mark will be, so take your time and apply light even pressure where you want it thin.
