INSTRUCTIONS

1. Start by painting the outside of the mug with 2 coats of London Fog using a fan brush.
2. Dip the sponge in Battleship and tap off the excess onto a paper towel. Sponge lightly around the mug to give some texture.
3. Use a pen to trace on the NCR pattern by pressing firmly while tracing over the design.
4. Fill the handles of the tools, the hyphen, and the period on the pattern with 3 coats of Stonewash using a small brush.
5. Fill in the tools on the pattern with 3 coats of Battleship.
6. Next use Turquoise and Indigo to fill in the remaining letters in the pattern with 3 coats of paint.
7. Use a fan brush to paint 3 coats of Turquoise to the inside of the mug.
8. Finally use a medium brush to paint in the handle with 3 coats of Stonewash.

TIPS

- 3 coats of paint will give you a solid color.
- If you feel like your darker color is too heavy when sponging, tap on some of the London Fog to help it blend in.

MR.
FIX it

The image features the text "MR. FIX it" in a stylized, outlined font. The letters are arranged in two rows. The top row contains "MR." and the bottom row contains "FIX it". The letter "M" is replaced by a screwdriver, "R." is replaced by a wrench, "F" is replaced by a hammer, "I" is replaced by a screwdriver, and "T" is replaced by a wrench. The text is centered on a white background.
